Extend the impact of your visit to Pioneer Activity Centre

A Key Stage 2 and 3 Educational Resource

Literacy • Numeracy • Science

As a teacher you can now increase the impact of your visit to Pioneer Centre, extending its benefits back to the classroom with this unique education pack. Carefully designed to engage and challenge your pupils 'Inspire!' is based on the experiences they had whilst on-site with us at Pioneer Centre.

Select from a range of literacy, numeracy and science challenges, building a package that suits the needs of your pupils. Each activity concludes with a bonus 'exploRE' task - a moment to pause for thought and consider a related issue or moral dilemma designed to encourage reflective thinking.

Pioneer Activity Centre has been committed to providing students with exciting opportunities to grow in confidence, in character and in community through sport and adventure activities since 1991. During a school residential or activity day our team of qualified and experienced instructors offer students the opportunity to stretch themselves as individuals, bond as team and grow in friendship as they work together, eat together and relax together.

Our extensive activity programmes already support key outcomes in the PSHE curriculum and develop essential Personal, Learning and Thinking Skills, fostering a sense of pride both in themselves and in their school community.

All schools with a confirmed booking at Pioneer Centre can receive the entire learning resource on CD for only £20+VAT (usually £180+VAT), enabling these excellent activities to be delivered back in the classroom. To take advantage of this amazing offer speak to a member of our team.

Excellent value, challenging and fun!

A wide range of activities to choose from, including the chance for your pupils to...

Host a press conference on the first Canadian ascent of Mt. Everest
Investigate the effect of adventure activities and exercise on their heart rate
Design sports shoes for some new activities at the Centre
Lead the authorities to some rare stolen Eagle Owl eggs
